Congresswoman Schwartz talks with two constituents during her October Meet and Greet at the Lansdale Public Library.

Dear Friend,

On January 1, 2006, new prescription drug plans will be available to help people with Medicare. Although this new benefit has the potential to help seniors and the disabled pay for prescription medications, understanding the program and navigating the enrollment process may be confusing.

Recently companies began to encourage Medicare beneficiaries to enroll in their approved prescription drug plans. Already you may have received information in the mail or seen a commercial telling you the benefits of enrolling in a specific company's plan. But, to make the best decision for you and your family, you need information on how the benefit will work, how to pick a plan best suited to your health care needs, and what steps you, or a loved one, must take to access the new benefit.

In an effort to answer your questions and concerns regarding this new benefit, I will be hosting information sessions across the 13th Congressional District during the months of October and November.

I have invited experts from the [Centers for Medicare and Medicaid Sessions \(CMS\)](#) to join us. I encourage you, or a family member, to attend a session before the initial enrollment for Medicare Part D begins, which will be from November 15, 2005 to May 15, 2006.

Below I have listed additional details on the upcoming Medicare meetings. Please feel free to share this information with your family, friends, and neighbors. Please contact my district office at 215-517-6572 or 215-335-3355 with any questions or comments.

Best,

Allyson Y. Schwartz
Member of Congress
